本誌にあつたという間に時間が過ぎて置いてます。

毎月のようにヒーヒー言つてはいましたが、

その分充実した1年でした。

「自分が読みたいものを自分で書く」という自動自足路線で書き始めた
 数秒にマイナーな設定の軍記系漫画なので、

私自身は連載開始当初、

2〜3巻で完結させるぐらいの意識でいたのですが、

応援してくださる方のお陰もあって、もう少し長めのプランで

ストーリーを進められるようです。感謝!

来年も引き続きこのペースで巻を重ねてゆくのが目です。

Die Geschichte

Then, from within the confusion, Balzer met Barrelband's 2nd Prince and the military academy's drill master, Ryner August Winklefeldt, and confronted him over proper teaching methods. After a class call, Balzer was able to resolve his plight by demonstrating his military skills in a mock battle with armed prisoners, but...

19

Century

This age was the height of Imperialism.

Our protagonist, Major Balzer, of the great military state of Welfen has transferred to a military school in the wild country of Barrelband. His orders are to push forward an agenda of military reform in Barrelband, a country still retaining an undeveloped military. However, he has no end of trouble pursuing this in an academy with instructors and students long accustomed to peace and prosperity.

However, after his father made a failed attempt at running a business, his family lost its influence.

Rudolf von Listeneck comes from a Junker family who used to own large swaths of land and landlord privileges.

After the death of his parents, his new life was bleak. He had no money and no family to help him out of his predicament.

HEY, BRADDOY!

Most nobles, when they fall into a period of decline, will flaunt their lordliness over ordinary citizens in order to protect their last sliver of pride.

However, he was very different.

NOT EXACTLY WHY DON'T YOU FACE ME AS YOUR NEXT OPPONENT?

WHAT OF IT? YOU THINK IT'S SHAMEFUL?

DON'T TELL ME YOU'RE GIVING UP ON CHALLENGING ME!

Welcome to the
Military Academy

Even so,
it scored his
personal ambition
wills to become a
member of the
Military University
and exposed his
ultimate effort in
studying together
with the rest of us
commissioned
officers in
training.

When he
graduated
from the
Military
University,
he was
immediately
selected as
a
regiment
commander.

DON'T
SAY THAT

He's a
man who
was
strong
enough
to make
you proud

I was
always
proud to
be able
to call
him my
friend.

WELL, IT'S NOT ALL THAT BAD.

I MEAN, SERIOUSLY, DO THEY HAVE TO GET SO ADDRESSED IN SUCH A SMALL DISCREET?

JUST LISTENING MAKES ME EMBARRASSED.

YOU DON'T HAVE THAT?

...DON'T THINK SO...

EVERYONE WANTS TO INDICATE BELIEVE IN THE NATION AND SOCIETY

A SUPPLIANT DESIRE SO BELONGS.

WHAT ARE YOU TALKING ABOUT?

IS THAT SO? THAT'S A LOT LIKE YOU, RIGHT?

Although it's interesting to be like this.

HA, HOW TO SAY THIS, SINCE I PUT THE GREATEST EFFORT INTO WHAT I DO, SOCIETY OR NATION IS, OF COURSE, OF LESS IMPORTANCE. IN THAT WAY I SHOULD PUT IT?

WILL DO
I UNDER-
STAND THE
VERY HUMAN
FRACTIONS
THEY FEEL.

BECAUSE WHAT
OUR HEARTS
DEPEND ON IS
OUR EMPATHY
WITH THAT WHICH
IS GREATER AND
MORE POWER-
FUL THAN OUR-
SELVES.

WHEN I WAS
VERY YOUNG,
I LOST MY
FATHER.

AND IN
PLACE OF
DAD, I WAS
GRADED BY MY
LOYALTY TO
THE NATION.

However, now the Fatherly nation and the military have been subjected to the weak National Assembly, and are being enslaved by money and special interests.

I WON'T FORGIVE THEM...

I was shaken by the emotional side I had never seen in him before.

Perhaps it was the realization he experienced from the perspective of a right man... never...

Red

I have
a bad
feeling
about
this...

After that,
the group

standing
the
university

WE
HAVE USED
HUNDREDS OF
OUR LOY-
ALTY AND
BRIGHT

AS A RESULT, WE
HAVE LOST SIGHT
IN THE GREAT
CAUSE, AND HAVE
GIVEN OURSELVES
TO THE FOLLY-
CLAND WHO
PROMISE FIVE
TIMES AND
DISAPPEAR.

SINCE ANCIENT
TIMES, WE HAVE
LONG BEEN FOLLO-
WED BY THE COURSE OF
WISDOM AND FOR-
TUNE.

This is
already...

...No
way...

He's
attempting
to incite
them into
a coup
d'état!!

Moreover, he has
already gathered this
many Officer
Candidates and
Commissioned
Officers.

It's only a matter
of time before
they take action.

This is no
joke... Why the
hell did he call
me to this kind
of meeting?

IN THE NAME OF HIS
MAJESTY THE KAISER,
LET US LIBERATE THE
ARMY AND CONDUCT
POLITICS THROUGH
WARFARE!

Well...
PRRRAA...

BEHIND,
MY FRIEND, YOU
WILL COOPERATE
WITH US TOO,
RIGHT?

FOR
JUSTICE,
WE WILL
RISE!

And I can
too late to
possibly
even to stop
it well.

If I don't
cooperate,
that man
I would be
placed in
danger!

Just too much to
refuse to refuse.

I had no choice
but to grab the hand
that held out.

And then...

I'll have to stop
this... There
must
be a way.

What should I do?

At that point,
those who refused
to be a guinea pig
and sacrifice.

I'm not willing
to blindly
support my
classmate and
joyously march
to my death.

MAGNUM-PROUDLY PARDON THOSE WHO BLAME ME, IS IT...?

I WILL SUGGEST THIS, ALONG WITH COUNTESS-ANNEBORN, TO THE WAR COUNCIL WHEN I ATTEND.

IT WAS GOOD OF YOU TO REPORT.

I WILL ASSURE YOUR COMPLETE SAFETY.

I realized the best thing I could do for them was to have them surrender before they became too large an threat.

I had to do anything I could to avoid my people's blood being shed in vain.

THE GENERAL IDEA OF THEIR STRATEGY IS TO ATTACK AND THEN OCCUPY THE IMPORTANT ADMINISTRATIVE BUILDINGS. AFTER INADING THE FUNCTIONS OF THE CITY THEY WILL KILL THE CIVILIAN INMATES.

THERE WILL
BE A NEED TO
GUARDIAN THE CITY
STREETS IN ORDER
TO BLOCK ENEMY
REINFORCEMENTS.
NEXT, MANY OF THE
MILITARY WILL ONLY
BE REMAIN UNDER
ORDER OF THE
OFFICER, BUT
ALSO THERE WILL
BE GUARD.

However, my thinking was overly naive.

THAT WAS A REAL THUNDER... BEFORE ALL ABOUT YOUR OWNERS, OFFICERS AND POLITICAL COMMISSIONED OFFICERS...

COULD THEY REALLY BRING SUBORDINATES TO THE POINT THAT ALL OF THEM WOULD COMMIT SUICIDE...?

NOT TO MENTION, I ALSO WANT TO UNDERSTAND THE MOVEMENTS OF THE SOLDIERS. THE KING'S IS MAN ARMED.

It won't be pretty...

The ridges left behind by the vestiges of a fort can still be found in front of the bridge.

So they plan to set up the military defenses there, then use the demonstrations into the range of their cannons and destroy them, do they?

Amateurish and even some of the interesting ones which will get into this magazine

This time I will describe the ways people used some of the items that appeared in the manga. I would love to draw a more in-depth panel on the ways to use the old washing machine.

Religious Politicians take has recently cut his hair and now looks like a young boy with a mustache and

SHOOTING PRACTICE

- Targets are made of paper. The paper targets are then attached to a wooden frame.
- For as long as possible, the target paper was reused by patching the small holes made by bullets with more paper.
- Earthen barriers were made in front of the targets so that students could be right near the targets during practice. This was so that they could check the accuracy of shots which were then written down on signs that could be shown to the students. This was a pretty dangerous job.

WASHING MACHINE

In general, most people during this time period just used a washing board. However, there was already a manual hand-crank washing machine on the market. It was made via the simple concept of spinning the handle which caused the water in this basket after closing the lid of the machine.

Towards the front, you can see a hand-cranked drying mechanism. It was made so that the collected water was removed from the side in order to keep the clothes dry.

UNDERGARMENTS

Hanging in this picture are the undergarments common to this era. They became popular after the increase in production caused by the assembly line. One of the items of undergarments (The Under Suit, not was formerly called because a university used undergarments in the 19th century and is still commercially available today).

They resemble full-body lights, but can be unlatched near the area around the bottom for purposes of hygiene.

WHIP

This type of whip was originally used to manipulate horses, and for that purpose, was able to deal pain enough to be felt through a horse's thick hide, ensuring it was very painful when used directly on human skin. Last time I went horseback riding, I tried feeling it on myself and came away with a stinging bright red welt. This type of exaggerated punishment was absolutely forbidden for good reason, guys!

Its introduction into some of the interesting research that was put into this change.

Letters

In the Bowland Military Academy, because all the letters were censored, they were opened before reaching the students. If there were any sections that were problematic, the sentences in question would be blotted out. In the same fashion, letters sent by students to their families were also censored so that they would leak neither military secrets nor personal complaints nor dissatisfaction.

The special of the postal system was the same as a lot of the old letter and message system.

Handcuffs

The 19th century model for handcuffs were in a figure eight that prevented the hands against any another very hard because of this they would cut circulation off and it was not uncommon for some street cops to use a miscolored shackle that just meaning there caused physical pain. They were like a better torture instrument in a lot of places.

In modern handcuffs, this chain is a really handy tool.

Now that's a really handy tool!

Every person in prison, being the subject of an investigation, I've gone through on many things.

We get most of our work done in a week. It definitely gets to my place!

Although before in the role protagonist of the story, the volume is split into two parts: the part about war and strategy, as well as the part about politics and daily life. But after I drew the daily life parts, I really liked to color them in the end. Including the main part of the manga, I am very happy to draw all of this. I'm afraid it's probably just self-satisfaction, though.

Religious Philosophy takes words in the in the whole ending open scene for a while!

Colouring pencils

At around the time, the hexagonal pencil was just newly designed and was a popular tool.

The first company to develop this type of pencil was Faber-Castell company that is still so famous today that it even has dedicated institutions art supply shops and handy needs an introduction. The colored pencils were particularly loved.

Acquaintance with some of the interesting aspects of what you get into with college.

● About The Military University that Zucker attended.

Immediately after graduating from the Military Academy and spending two years studying states in an officers school.

There were forty small state teaching/research facilities under the management of the headquarters of the Chief of Staff.

The university usually accepted people between 21 and 25 years old, but there were some people who were already past officers in other units who brought some ideas, so you could think you'd finished high school.

And the facilities are filled with those of the Military Academies, so there is a lot of contact with the academy students.

As an officer club show earnings facilities for the income of those about major rank.

It is the middle of testing the new survey equipment.

An introduction into some of the interesting research that has put into this magazine

And the recipe that made the stage today

Eintopf

Ingredients (For 4 people)

- 200g Bacon
- 200g Lentils
- 2 Carrots
- 2 Onions
- 2 Potatoes
- 2 French Onions
- 2 Celery Sticks
- Dried bread to toast
- 3 Laurel Leaves
- 1500ml Water
- Salt and pepper to taste
- 4 Cubes of Beef Bouillon

- 1 After soaking the lentils in a bowl of water for around 10 minutes, boil them for a further 10 minutes then put them in another pot
- 2 In the meantime, cut the bacon, carrot, onion, potato and celery into small cubes and place the garlic on finely as possible
- 3 Brown the onion and garlic in the pot
- 4 Once they are browned, add the other vegetables and the bacon
- 5 Add the water, laurel, basil, leard and thall and let it boil for 20-30 minutes
- 6 Add salt and pepper to taste and it is ready!

You will need a big serving pot

When you need to use the left over ingredients in your fridge, this is the dish to make.

You could probably even make a great Eintopf if you added things like curry or mince.

At times when there wasn't enough to eat, we also substituted the lentils or potatoes by mixing wheat leaves into the soup. There were many times that we didn't like to eat the food because of the smell, but the smell was not a problem with health. In any eating of the nutrient content - so that's where it comes from. People who ate to make a protein source should try and make this "meal" from whole grain cereal.

Over the head of here

There are many different types of lentils, and they are all very healthy. They are a good source of protein and fiber, and they are also very easy to digest. They are a great food for people who are looking for a healthy meal.

 The unbelievable
 announcement, number 11

The Military Advisor
 has zero motivation?!

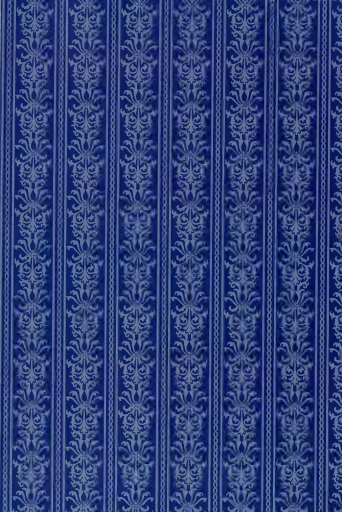

"The Military Instructor, who has yet to show any promise at all, should resign immediately!" is what has been said of him. On the other hand, this Major Balzer has been having success with all classmates whom he doesn't want to see, has been praised with terrible work under thoughtless royal pride, and, despite taking on a foreign post to try to advance his career at home, has even been decorated with war-like ones such as, "Against the wildest instructor!" "Adultery are dirty and corrupt!" and "Do you really not have a girlfriend, coach?" And, evidently, had reason to have lost his motivation. He should continue very carefully from now on.
